Fruit Trees at Cost Prices

THERE is a vast difference in the prices quoted in this little booklet and prices quoted by Agents and Dealers. The prices quoted here are the Grower's prices or the actual *Cost Price* of raising Fruit Trees. Agents' prices are *these prices* which he has to pay the grower plus his railroad expense, hotel bills, livery bills and his commission. This is what you are paying for when you pay Agents high prices.

Reilly Brothers Nurseries
Dansville, N. Y.

The Object of this Booklet

Is to call your attention to our list of varieties and low quotations on fruit trees bought direct from our Nurseries.

Healthy, Hardy, Well-Matured Trees

Our Nurseries are located at Dansville, N. Y. where we have over 2,000,000 fruit trees under cultivation. It is a well established fact that in no other part of the country do trees attain the perfection they do in Dansville. The soil in this vicinity is particularly adapted and best suited to produce the healthiest condition of growth, solid, firm texture of wood with abundance of roots so necessary in transplanting.

True to Name Trees

Our scions for budding are cut by one of the firm from select bearing trees. Our reputation for delivering strictly true to name trees has brought us trade from every State in the Union.

Our Method

Of selling direct to planters from our Nurseries, has not only been a saving of 25 to 50% to them in money, but our customers are able to secure a good, clean healthy grade of *Fresh Dug Trees*.

Our long list of satisfied customers is our best advertisement.

Remember we employ no Agents, all trees are sold direct from our Nurseries at Wholesale.

A Trial Order will convince you of the superior *Quality* of our trees.

Dansville Nurseries Free from San Jose Scale

New York Inspector Barden unreservedly declares that Dansville is the only nursery center of any important size that is entirely free from San Jose Scale ; this fact is not generally known.

Mr. Barden believes that Dansville trees are worth five cents each more than the market price, as the reputation of Dansville Nurseries for freedom from San Jose Scale and general vigor of its trees and plants is worth many thousands of dollars to the planter who buys Dansville trees.

Dear Sirs:—The shipment of cherry trees you sent me this last spring are certainly the finest I have ever planted. In planting I cut them back to three branches, with six buds to a branch and now I can show branches 30 inches long. Your trees are way ahead of any trees that were shipped in here last spring and I wish to compliment you on the excellent grade of trees you sent me and the prompt attention given my order.

Yours truly,

J. A. KLINE.
